

NSF/ANSI/CAN Standard 61 - Drinking Water System Components - Health Effects

Authorized Registered Formulation

Customer Name: Rashmi Metaliks Limited

Facility Location: India

Customer Number: C0785438

Facility At: Paschim Mednipur, India

Facility Number: C0790626

Trade Name(s)

RASHMI AQUA Cement Mortar Lined Ductile Iron Pipe

Function(s)

Ductile Iron Pipe

Size

8 - 48 in

RASHMI Ductile Iron Fitting

Ductile Iron Fitting

8 - 48 in

Category: PIPE, SECTION 4 - PIPES AND RELATED PRODUCTS

Material Type: Multiple Water Contact Materials (MLTPL)

Temperature: Cold (73 °F / 23 °C)

Auditor Notes

The product is manufactured at facility C0785445 then shipped to facility C0790626 where it is externally coated and marked. C0785445 is an audit-only facility where the wetted parts list will be audited. Sample will be collected at C0790626.

Sample Notes

Sample 1: Please collect (4) 6" lengths lengths of 8" diameter pipe that are internally coated with Blast Furnace Slag Cement (IA35651). The socket profile should be coated with BPL Water Based Black Asphaltic Paint (IA35652).

Sample 2: Please collect (4) 6" lengths of 8" diameter pipe that are internally coated with Sulphate Resisting Portland Cement (IA35650).

Sample 3: Please collect (4) 6" lengths of 8" diameter pipe that are internally coated with Rashmi Cement 43 Grade OPC (IA35653).
